Operating activity includes the Bank's core activity that generates income. The funds generated from operating activity are intended to maintain operating capacity, making new investments, repayment of debts without employing external financing, and the amount of the funds is used as a basis for assessment of the effectiveness of the Bank's particular operations. The operating activity refers primarily to core banking activity such as:

- granting credits and cash loans,
- accepting deposits.

In addition, the Bank includes to the operating activity the following items: income tax payments, revenues from income tax surplus payments, adjustments of the net financial result by depreciation and all non-cash items related to investment and financial activity.

The investment activity is connected with purchasing and sale of long-term assets that allow the Bank to generate future profits, specifically the following:

- receipts and expenses related to sale / purchase of fixed tangible and intangible assets,
- receipts and expenses related to sale / purchase of shares and stakes in companies,
- receipts and expenses related to sale / purchase of debt securities.

The financial activity involves changes in the volume and relations of own capital to outside capital invested in the Bank, specifically the following:

- contracting and repaying long-term loans towards banks,
- receipts from own share issues,
- expenses for social purposes (donations).
