

# FIRST LOGIN

## TO THE BIZNESPL@NET SYSTEM

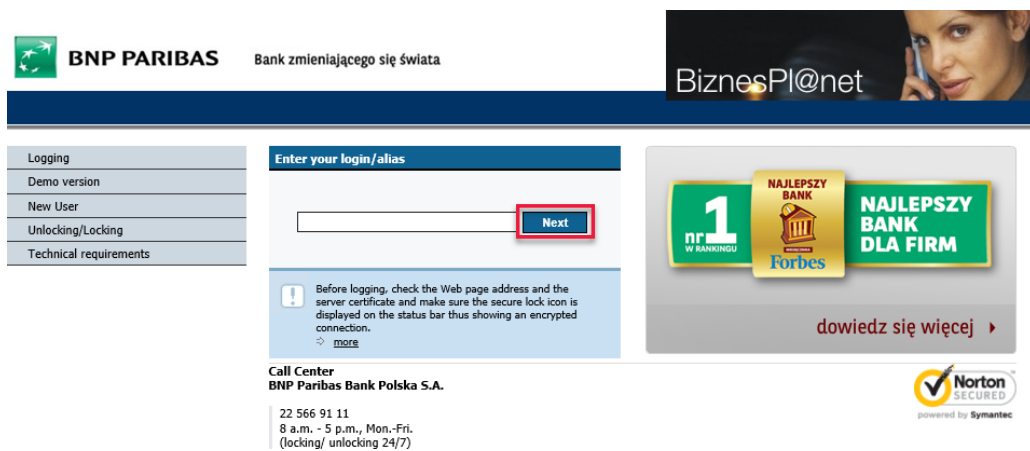

1

Go to the website [www.bnpparibas.pl](https://www.bnpparibas.pl) and in the top right-hand corner of the screen, click [LOG IN]. Then select *a tile* with the name of *BiznesPl@net* and click [LOG IN].

2

Enter your current identifier for the *Online Biznes* system and then click [NEXT].

### LOGIN (IDENTIFIER)

This is a 7-digit user identifier which is used for logging into internet banking.

If you do not remember your identifier number, contact the hotline on **22 566 91 11** or **801 321 123** (the call will be charged at your operator's standard rates) or the nearest branch of the Bank.

# FIRST LOGIN TO THE BIZNESPL@NET SYSTEM

Login for users using SMS code authentication

1

**SMS PASSWORD** – the first time you try to log in after entering your login, you will receive a starter password on your existing telephone number to operate in *Online Biznes*. Enter it in the system and select the **[LOG ON]** button.

Enter the received starting password:

2

## ASSIGNING A NEW PASSWORD TO BIZNESPL@NET

The password should have a minimum of 10 characters, including at least three of the following groups: capital letters, small letters, numbers or special characters such as !@#%&\*()

Enter a new password and click **[CHANGE PASSWORD]**. The new password will now be applicable for each of your logins previously held in the *Online Biznes* system.

Access password change

3

## ENTERING THE AMENDED PASSWORD IN STEP 2

Each time you log in, *your password will be disguised for security reasons*, i.e. each time you log in:

- you will be asked to enter the selected characters from your password in the marked fields,
- it may be a different set of characters from your password,
- the number of entered characters may vary (not more than the number of characters in your password).

Enter your password

# FIRST LOGIN TO THE BIZNESPL@NET SYSTEM

Login for users using cryptographic key authentication (USB token)

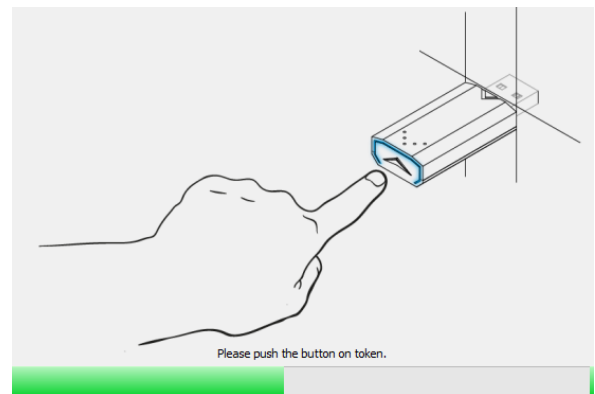

1

During the first login attempt, after entering the login, users using a **USB token** will be asked to select the key and enter the **PIN** – currently used in the **Online Biznes** system to authorise the request.

2

Enter it into the system, connect the device to the computer, and then select the **[SIGN]** button.

The verification process will be interrupted in order to press the button on the device.

token USB

Every time you log in, the system will require you to enter your **LOGIN** and authorise the operation with the **USB key**.
