

GOmobile
SEE HOW
SIMPLE IT IS!

EASY AND SAFE MOBILE BANKING

Simple operations can now be done quickly and **without the need to visit a Bank branch**. You can make transfers and BLIK payments in a **simple, prompt and comfortable manner**. With the **GOmobile** application, you can use your account and related services **wherever you are!**

■ SEE HOW TO **ACTIVATE** THE APPLICATION

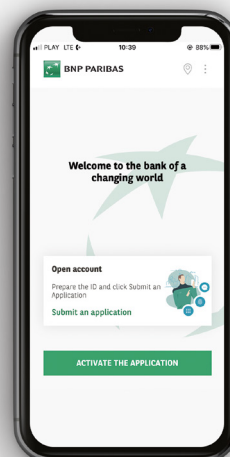

1

The **GOmobile** application is designed for **Android** and **iOS**. Go to Google Play or App Store and **download the application onto your phone**.

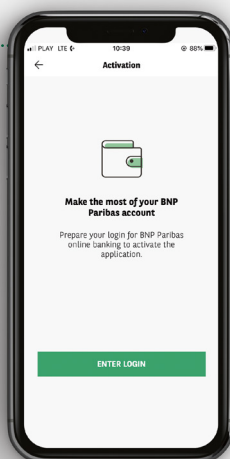

2

Once the application has been downloaded and opened on your phone, click the **"Activate application"** button.

3

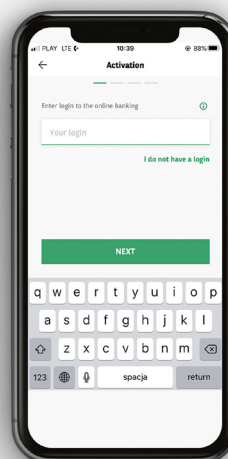

Then click
"Enter login".

4

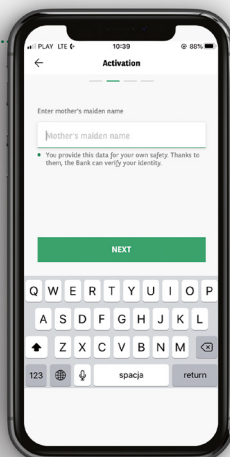

Enter the login, you use
for logging into online
banking (if you do not
have one, select a different
authentication method –
Personal ID No/PESEL or
passport number)

Then click "Next".

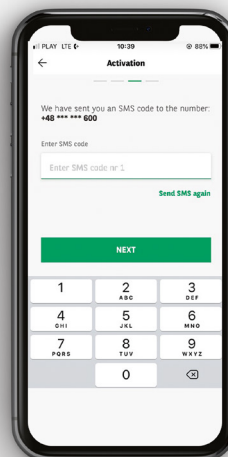

5

Enter your mother's
maiden name and click
"Next".

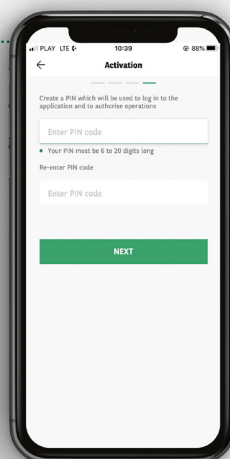

6

Following verification of
identity, enter an SMS
code and click "Next".

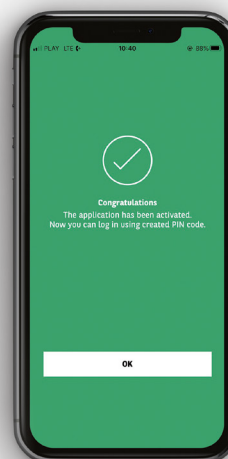

7

Define your
individual PIN code
(at least 6 digits), then
confirm it and click
"Next".

8

Done!
The
GOMobile
application is
now active.

■ DISCOVER THE ADVANTAGES AND KEY FUNCTIONALITIES OF GOMOBILE:

Cross-account transfers

You can transfer your own funds at any time — with a single gesture! Make a quick transfer of funds accumulated on your account by moving the green slider left or right on the desktop. Your main product is always shown on the left; quick access product is on the right — it can be changed by scrolling up or down.

Transfers to favourite recipients

In **GOMobile**, you can quickly make a transfer to your favourite recipients, even before logging in. To do so, add selected recipients to the "Favourite" section on the recipient list. You can also add their photos to make your usage experience even more pleasant.

Instant transfers

The recipient's account will be credited with the funds within several minutes. You can transfer amounts of up to PLN 5,000. The fees are charged according to the Table of Fees and Commissions available at www.bnpparibas.pl

Deferred transfers

Should you need so, set a later date of transfer. You will no longer have to keep in mind those future bills to pay.

Payments and withdrawals without a card

You need to pay for a product or service, but forgot to take a wallet? This is not a problem! Thanks to the BLIK service available in the **GOMobile** application, you can quickly and safely make online transactions, withdraw money from ATMs and pay in brick-and-mortar and online shops.

Apple Pay payments

Use your iPhone, Apple Watch, iPad and MacBook Pro to pay in shops easily. Open **GOMobile**, select the card you wish to add to Apple Pay and pay in any location which accepts contactless payments and Apple Pay.

■ SIMPLE AND CONVENIENT

Authentication of operations in GOonline

You can use the application to easily confirm operations from the GOonline online banking system, without copying a text message.

More about GOonline:

<https://www.bnpparibas.pl/english-info/offer/goonline>

Biometric login

The application lets you choose the logon method. You are free to decide whether to log in using a PIN code, a fingerprint reader or face scanner (if your smartphone offers such a function).

9 650,92 PLN

Preview of account balance without logging in

You can check the account balance even before logging into the application. Choose the method of displaying the balance: in amounts and/or in percentage terms.

Access to banking products

In **GOMobile** you may submit an application for various bank products, for instance travel insurance for you and your loved ones or opening or closing a term deposit — all this at any place, with your smartphone at hand.

Notifications about operations on the account

The application will let you know about credits and debits on your account when you pay by card. Decide what information you want to receive. You can enable or disable notifications that interest you in the settings section.

Preview of products owned

Conveniently control your banking products: accounts held, cards, time deposits, insurance and loans.

Remember about the security principles

- Do not make your device or confidential login data available to third parties.
- Lock your mobile phone by using a password/PIN/graphical symbol (the pattern is not visible in the options). You can also set an additional securing PIN on the SIM card.
- Install applications downloaded from official sources only (App Store, Google Play).
- Never install applications from unknown sources. If you are asked to do so, this is probably an attempt at installing malware on your phone.
- Look out for SMS/MMS/e-mail messages from unknown senders. They may contain links to websites with malware or to fake online banking websites.
- Feel safer thanks to notifications — enable them in the GOnline mobile application by choosing Settings -> Notifications. You will receive a free push message on your device.
- Only download applications from authorised stores and websites. Never install applications from unknown sources. If you are asked to do so, this is probably an attempt at installing malware on your phone.
- Learn about more secure banking principles (currently available materials in Polish) at: www.bnpparibas.pl/bezpieczenstwo
