The commission is calculated on the amount which is a difference between the credit (loan) amount / loan tranche amount determined in the agreement / credit amount indicated in the Borrower's statement (for overdraft facilities) and the amount of the utilized credit (loan) in a specific period / as at a specific day:

The commission is computed for the financing term, on the average loan amount provided available by the Bank to the Borrower in a given calendar quarter and charged by the Bank on the 15th day following the quarter end.

A payment following the Borrower's termination of the loan agreement shall also be deemed prepayment.
  9. A commission for an amendment to the agreement is due on the day of signing an annex to the agreement at the rate arising from the annex to the agreement, whereas the obligation to pay the commission for changing the credit/loan currency arises at the time of changing the credit/loan currency by the Bank. 20. With respect to guarantees and letters of credit, subject to provisions of the table of commissions and fees, the Borrower will reimburse the Bank for costs (including fees of banks and other intermediary institutions and reasonable costs of external legal advice), expenses (including consignments, translations and notices) and fees incurred in favour of third parties (in particular, calculated by banks that issue guarantees in the event of submitting an order to issue a guarantee under the counterguarantee structure) incurred by the Bank in connection with negotiation, acceptance and execution of the order, analysis of the demand for payment, dispute between the Bank and the guarantee/letter of credit beneficiary related to the guarantee issued /letter of credit opened, as well as resulting from any existing event of default.
21. Moreover, if according to the order instruction, costs related to the order execution should be paid by the beneficiary, and the beneficiary refuses to pay them on their due date, the Borrower shall immediately pay them to the Bank.
22. With respect to guarantees and letters of credit, if costs are denominated in a currency other than PLN and the Borrower's account is maintained in PLN, the currency conversion is made at the NBP mid-rate applicable on the payment date.
- For overdraft facilities, the credit is made available to the Borrower when the Bank confirms that the Borrower has fulfilled credit disbursement conditions or making the credit available conditions, whereas if the overdraft facility agreement refers to conditions of making the credit available, they are considered identical with the disbursement conditions to the extent determined in the Regulations.
  - The Bank shall disburse the credit made available upon the fulfilment of the following conditions (disbursement conditions):
    - payment of commissions (fees) due and reimbursement of costs incurred by the Bank related to granting the credit/loan as previously agreed and accepted by the Borrower,

The confirmation of the fulfilment of the disbursement conditions is effected by presenting appropriate documents to the Bank.
  - In the event that within three (3) months of the agreement conclusion, the Borrower has failed to satisfy the conditions necessary for the credit/loan disbursement, then the Bank may withdraw from the agreement or terminate it, even if the conditions are satisfied after the aforesaid period. The Bank may submit a statement on withdrawal from the agreement within one year of the agreement conclusion date, with immediate effect.
  - The Borrower shall, within three (3) months of entering into the agreement, unless the agreement states otherwise, make instructions to draw down a working capital facility or a non-revolving loan in full or in some portion. Should the credit/loan not be disbursed within this term, even in some portion, the Bank may lower the loan amount by the unused portion.
  - The credit/loan shall be disbursed by the Bank within three (3) business days of satisfying all and any conditions that determine credit/loan availability and disbursement. If an instruction made by the Borrower is also required for the credit/loan disbursement, the time frame shall be determined from the date of obtaining such instruction by the Bank, and fulfilment of other disbursement conditions, whichever occurs later.
  - An investment loan or its part is disbursed on the basis of a drawdown instruction submitted by the Borrower, or without such an instruction where the agreement so stipulates. To the drawdown instruction, the Borrower attaches payment documents (invoices, bills, etc.) that identify a bank account into which the Bank makes a transfer against the loan - in the case of refinancing the investment costs, it is the current account of the Borrower held with the Bank - as well as documents confirming that the loan will be disbursed in accordance with the purpose determined in the agreement. The Bank independently assesses whether a payment is consistent with the loan purpose. The loan is disbursed in the net amount (i.e. without VAT) or gross amount in the event the Borrower is not a VAT payer, indicated in payment documents submitted by the Borrower, unless the agreement provides otherwise.
  - Disbursement of the credit/loan despite the Borrower's failure to fulfil all the terms and conditions, upon which the disbursement depended, shall not discharge the Borrower from the fulfilment of the aforesaid terms and conditions.
  - If the credit/loan was made available in tranches, the subsequent credit/loan tranches shall be disbursed upon the fulfilment of relevant additional conditions specified in the agreement for the disbursement of specific tranches.
  - The Bank may refuse to disburse the credit (loan) (or a loan tranche), including to issue a guarantee or open a letter of credit, if:
    - the Borrower fails to fulfil conditions for credit disbursement; or
    - the Borrower loses its creditworthiness; or
    - the Borrower provides the Bank with false or incomplete information impacting the assessment of their creditworthiness; or
    - disbursement would lead to a breach of the financial indicators defined in the agreement; or
    - after the Bank made the credit decision, it turned out that the Borrower fails to fulfil their obligations towards the Bank resulting from other titles than the agreement under which the credit was to be disbursed; or
    - it is not possible for the Bank to acquire on the interbank financial market the funds in the amount and currency necessary to disburse the credit/loan or the credit/loan tranche for a given period of time or within the time period allowing the Bank to disburse the credit/loan or the credit/loan tranche pursuant to the agreement; or
    - in the case defined in §19 para. 2 of the Regulations.
  - As a result of the credit/loan disbursement, the credit/loan is rendered available by the Bank to the Borrower in the currency of the credit/loan. In the case of any economic situation changes that substantially affect the Bank's risk related to providing credit/loan in a foreign currency or in the case of a substantial decrease of availability of the foreign currency in the financial market, the Bank is entitled to exchange the credit/loan foreign currency into PLN. Such a change is made based on the Bank's declaration addressed to the Borrower in writing or with use of Electronic Signature. The currency change becomes effective unless the Borrower resigns from the credit/loan, not yet disbursed, whose currency is to be changed in this way. . The not yet disbursed credit/loan resignation statement may be made within 30 days from the day of receipt of the Bank's notification regarding the credit/loan

## §8 Making the Credit/ Loan Available and Its Disbursement

- The Bank provides a credit (loan) available to the Borrower from the agreement conclusion date, unless the agreement provides otherwise and subject to item 2 below.

- currency change. Any commissions and fees accrued on the credit amount with respect to which the resignation was effectively made shall be returned by the Bank to the Borrower.
12. If the Borrower makes an instruction to pay funds from the credit/loan disbursed in the currency other than the credit/loan currency, the Bank may make a currency conversion, provided that this currency is available at the Bank at the moment. In the event the specific currency is unavailable in the Bank, the currency conversion instruction is considered not submitted and the Bank shall immediately notify the Borrower that making the currency conversion is impossible.
  13. Funds from the working capital loan being disbursed are transferred to the Borrower's current account held in the Bank or to another account specified by the Borrower. The disbursement is made on the basis of a credit/loan drawdown instruction, pursuant to terms and conditions defined in the agreement and the instruction. In the case the disbursed credit/loan currency is different from the currency of the current account to be credited, the Bank shall transfer funds from the disbursed credit/loan after the currency conversion.
  14. In order to satisfy the Bank's matured receivables due from the Borrower on account of the agreement signed with the Bank regarding a derivative instrument - the Bank is entitled to disburse from the credit/loan made available but not disbursed in full or in some portion, an amount equal to the Bank's matured receivables and count it towards the receivables repayment, despite the Borrower's different instruction and regardless of the Borrower's fulfilment of all the terms and conditions necessary for the credit/loan disbursement. If the credit/loan currency is different from the currency of the receivable being repaid, the Bank shall convert the respective credit/loan amount into the currency of the receivable.
  15. In the event that the Borrower:
    - a) failed to fulfil the obligation to establish in favour of the Bank the collateral required under a separate agreement to secure a non-matured or contingent receivable of the Bank arising from a transaction regarding a derivative instrument, or
    - b) failed to establish the collateral required by the Bank pursuant to §18 item 5 of the Regulations,
 irrespective of the Borrower's instruction to the contrary, and regardless of the Borrower's fulfilment of all the terms and conditions necessary for the credit/loan disbursement, the Bank is entitled to independently disburse, from a credit/loan granted but not disbursed in full or in part, a credit/loan amount equal to the amount that the Borrower would be obliged to pay on account of derivative instruments transactions, as per the Bank's valuation of the Borrower's commitments towards the Bank under such transactions, which valuation was made as if the payment term of the said amount fell on the day of the Bank's valuation.
 

The amount of the credit/loan disbursed in the above manner will be collected by the
  - Bank on account of the collateral required by the Bank to be established by the Borrower, under the rules determined in a separate collateral agreement. If the credit/loan currency differs from the currency of the collateral required by the Bank, then the Bank will make a currency conversion of the respective credit/loan amount into the collateral currency.
  16. Foreign currency buy and sell rates applied by the Bank, hereinafter referred to as "FX rates," are determined by the Bank on the basis of the following:
    - a) average market FX rates of specific foreign currencies applied on the interbank FX market, published in the Thomson Reuters information service, hereinafter referred to as the "Average Market Foreign Exchange Rates", and
    - b) foreign exchange spreads determined in the Bank,
 pursuant to the rules determined below.
  17. In the case that an Average Market Foreign Exchange Rate is not published in the information service referred to above, the Bank sets the FX Rates based on data relating to the Average Market Foreign Exchange Rates published in another information or transaction service. Should it be the case, information on the source of data relating to the Average Market Foreign Exchange Rates, on the basis of which the FX Rates have been set, is provided in the FX Table valid at the Bank.
  18. The FX Rates are set by the Bank under the following rules:
    - a) a foreign currency sell rate, hereinafter referred to as the "Sell Rate", is set as an Average Market Foreign Exchange Rate increased by a foreign exchange spread set for foreign currency sale, hereinafter referred to as the "Currency Sell Spread" which is calculated in the following manner:
 
$$\text{Currency Sell Spread} = \text{Average Market Exchange Rate} \times \text{sale correction factor}.$$
    - b) A foreign currency purchase rate, hereinafter referred to as the "Buy Rate", is set as an Average Market Foreign Exchange Rate decreased by a foreign exchange spread set for foreign currency purchase, hereinafter referred to as the "Currency Buy Spread" which is calculated in the following manner:
 
$$\text{Currency Buy Spread} = \text{Average Market Exchange Rate} \times \text{purchase correction factor}.$$
  19. The difference between the Sell Rate and the Buy Rate of a given currency, calculated in line with the rules specified above, is a Foreign Exchange Spread which is a sum of the Currency Sell Spread and the Currency Buy Spread.
  20. The Bank sets the value of the purchase correction factor and the sale correction factor depending on the interbank foreign exchange market volatility, liquidity of particular currencies and competitiveness of FX Rates offered to the customers, while the amount of:
    - a) the Currency Sell Spread or the Currency Buy Spread calculated using these coefficients may not be higher than 5% of the Average Market Foreign Exchange Rate, whereas
    - b) The currency spread may not be higher than 10% of the average market exchange rate of the currency,
 with the proviso that the amount of these factors may be changed no more than once a calendar month.
  21. Information on the amount of the sale correction factor and the purchase correction factor is published in the form of an official notice available from the Bank's branches and the Bank's website - [www.bgzbnpparibas.pl](http://www.bgzbnpparibas.pl).
  22. Foreign currency rates binding at the Bank are published in the FX Table valid at the Bank from the day and time indicated therein until another FX Table becomes valid at the Bank. FX rates may vary during the day on which they are set.
  23. On each business day two FX Tables valid at the Bank are prepared:
    - a) the first one, valid from 8.45 am, and
    - b) the last one, valid from 4.15 pm.
  24. Irrespective of the times, specified in item 23 above, the Bank may prepare a new FX Table valid at the Bank, if in the time span between these hours, the Average Market Foreign Exchange Rate changed by at least half the value of the Currency Sell Spread or the Currency Buy Spread in relation to the FX Table valid at the Bank, and the change affected at least one currency listed in the FX Table valid at the Bank.
  25. The FX Table valid at the Bank includes FX Rates determined on the basis of the Average Market Foreign Exchange Rates prevailing in the interbank currency market at 15 minutes prior to the time specified in the table, from which a given table is valid.
  26. Current FX Tables valid at the Bank are available at the Bank's branches, in the internet banking system and they are published on the Bank's website - <https://www.bnpparibas.pl>.
  27. The rules and times of fixing the FX Rates may be changed in the following cases:
    - a) new legal provisions are introduced or the existing ones are amended with regard to fixing rates or foreign exchange spreads by banks, if this requires introducing this sort of changes at the Bank,
    - b) decisions or recommendations are issued by bank supervision bodies, competition and consumer protection bodies or other bodies so entitled, to the extent these changes include adjusting solutions adopted at the Bank to these decisions or recommendations,
  28. A credit/loan disbursement is not made using the split payment mechanism referred to in Article 108a of the Value Added Tax Law of 11 March 2004.
  29. Irrespective of the stipulations of the agreement and the Regulations, the Bank allows the Borrowers (who have access to the internet Banking System at the Bank) to submit Credit/Loan payment orders via the internet Banking System. The Credit/Loan payment orders may be submitted on behalf of the Borrower by each person who

has been authorized by the Borrower in the internet banking system to submit such orders (under the terms and conditions established in that System).

30. The Borrower may, in a loan drawdown instruction, select the loan disbursement option in order to make a payment for a VAT invoice issued to the Borrower, in the split payment mechanism. To use this option, the Borrower must first open a split payment account with the Bank. The split payment account will be blocked all the time, which means that no other payments may debit or credit this account. A VAT account will be opened for the split payment account, which will not be linked to any other account maintained by the Bank for the Borrower. In such a situation, the loan drawdown instruction will also constitute the Borrower's payment order with the content specified in the appendix to this instruction.

### §9 Credit/Loan Interest Rate

1. The credit/loan interest shall accrue for the actual number of days from the credit/loan (credit/loan tranche) disbursement day inclusive until the day preceding the credit/loan repayment. The interest shall be calculated on the credit/loan amount actually used.
2. The credit/loan interest shall be calculated using a fixed or variable interest rate.
3. A fixed interest rate cannot be changed over the Financing Term, subject to item 11 below.
4. A variable credit/loan interest rate corresponds to a variable base rate specified in the agreement, increased by a number of percentage points specified in the credit/loan agreement ("margin").
5. Any change of the variable base interest rate shall not be deemed an amendment to the agreement. Change of the variable base interest rate shall result in an automatic change of the credit/loan variable interest rate, accordingly.
6. The variable base interest rate may refer to LIBOR, EURIBOR or WIBOR rate, depending on the credit/loan currency.
7. The variable base interest rate is set for the first time on the credit/loan disbursement day at the rate published two business days (established according to the country where the rate is published) before that day.
8. The variable base interest rate shall be updated by the Bank for the first time:
  - a) on interest maturity date that falls in a month following the month of the first credit/loan disbursement, if that date differs from the credit/loan disbursement date,
  - b) on interest maturity date that falls after the period corresponding to the variable base interest rate period (1M, 3M, 6M, etc.) indicated in the agreement and counted from the credit/loan disbursement date – if the interest maturity date is the same as the credit/loan disbursement date.
9. The Bank shall make subsequent updates of the variable base interest rates regularly in periods of time corresponding to the variable base interest rate periods (1M, 3M, 6M, etc.) specified in the agreement and counted from the last update date.

10. Every update of the variable base interest rate is made at the rate published two business days (established according to the country where the rate is published) before that day.
11. The fixed interest rate of the credit/loan, or margin stipulated in the agreement may be increased accordingly in order to cover costs incurred by the Bank in relation to granting the credit/loan. This may take place if in the course of the financing term, under law regulations implemented after the agreement conclusion, the Bank becomes obligated to establish credit/loan-related provisions, special funds, deposits or pay similar fees. Instead of increasing the margin, however, the Bank may charge an additional commission or fee to the Borrower.

### 12. Where:

- a) the agreement does not specify the interest rate, or
- b) the variable base interest rate, applicable to the currency of the credit/loan or its tranche, is not published, or
- c) the actual cost of respective financing by the Bank is higher in the interbank financial market than the amount of the published variable base interest rate, applicable to the currency of the credit/loan facility or its tranche, or
- d) it is not possible to set the interest rate for any other reason,

the Bank shall individually determine the interest rate that shall be the total of the Bank's margin and appropriate interest rate established by the Bank in good faith, based on available and credible sources, inclusive of the costs of acquisition by the Bank of the required amount for a given period.

### 13. Interest rates shall be set per annum. Interest for one day is calculated by dividing the interest rate by:

- 365 days for all credits/loans, except:
  - a) credits/loans repaid in equal loan principal and interest instalments,
  - b) credits/loans granted before 1 August 2016 other than overdraft facilities,
- 360 days for credits/loans listed in item 13 sections a) and b).

### 14. The Credit/Loan interest rate may not be higher than the maximum interest rate. In the event the credit/loan interest rate set forth in the manner stipulated in the agreement is higher than the maximum interest rate, the Bank shall charge interest equal to the maximum interest for this period.

### §10 Grace Period

In the event the agreement provides for a grace period, the following provisions shall apply:

- a) grace period shall be set in months,
- b) grace period commences on the first day of the month that follows the month in which the credit/loan disbursement period has expired,
- c) grace period shall not extend the financing term,
- d) grace period for the credit/loan repayment shall not apply to other receivables due to the Bank, the interest in particular.

### §11 Currency of Credit/Loan Repayments

1. Repayment of the receivables shall be made in the credit/loan currency.
2. Repayment of the receivables in the credit/loan currency may also be preceded by currency conversion made by the Bank. The currency conversion is applied in particular when a foreign currency credit/loan is repaid by way of debiting the Borrower's PLN account agreed upon for repayments.
3. The above-mentioned rules shall be also applied accordingly when the Bank offsets its obligations with the Borrower's receivables.

### §12 Credit/Loan Prepayment

1. The Borrower has the right to prepay the Credit or a portion thereof, having notified the Bank about such an intention no later than three (3) Business Days prior to the date of the planned prepayment indicated in the instruction. Such an instruction, after the prepayment has been settled by the Bank, may not be withdrawn by the Borrower. Concurrently with making the prepayment, the Borrower shall pay any interest, commissions, fees and costs due to the Bank under the (credit) agreement.
2. The instruction shall be realized no later than on the third business day after it has been made and will be realized as at the prepayment date indicated in the prepayment instruction, as long as there are funds to execute a prepayment, in the amount indicated in the instruction, at the execution date. The prepayment date indicated in the instruction may not be earlier than the date of submitting the instruction. If there are no sufficient funds in the full amount indicated in the instruction, the instruction may be executed at a late date, after sufficient funds are provided to make the prepayment in the amount resulting from the instruction, however, not later than on the 30th business day from the instruction submission date. In such a case, the prepayment will be made as at the date when the Borrower provides the funds sufficient to make the prepayment in the full amount resulting from the instruction.
3. The Bank, in the first place, shall count the amount paid towards the credit/loan receivables that are due the earliest.
4. In the case there are insufficient funds on the Borrower's bank account to cover the relevant prepayment fee the Bank shall be entitled to decrease the credit/loan prepayment amount by the fee due. The Bank is also authorised to allocate the amount of the prepayment, made in full or in some portion, towards the receivables due to the Bank from the Borrower on the day of making the instruction, arising from other title than the agreement.
5. Irrespective of the stipulations of the agreement and Regulations, the Bank permits an option, for Borrowers who have access in the Bank to the internet banking system, to submit credit/loan prepayment orders via the internet banking system. The credit/loan prepayment orders may be submitted on behalf of the Borrower by each person who has been authorized by the

Borrower in the internet banking system to submit such orders (under the terms and conditions established in that System).

### §13 Methods of Receivables Repayment

1. Any receivables shall be repaid at their maturity (payment date) at the latest into the bank account designated in the agreement.
2. In the event the loan amount is to be repaid in equal instalments and it is not divisible into equal instalments, the instalment amount will be rounded down, depending on the loan currency, either to full Polish zlotys or other respective currency, and the last (balancing) instalment will constitute the difference between the loan amount disbursed and the total of the remaining instalments.
3. The receivables shall be repaid by debiting the Borrower's account by the Bank up to the balance available at the receivables' maturity date. The Bank may debit the account without a separate instruction of the Borrower. The Borrower shall ensure that there are sufficient funds on the account to allow the repayment.
4. In the event the receivables are to be repaid into a credit/loan account of the Bank (the Bank's internal account), the funds earmarked for the receivables repayment should credit that account at the receivables maturity day at the latest.
5. The Bank may at any time designate an account other than the one indicated in the agreement to be credited by the Borrower with funds necessary to cover the Bank's receivables. Such change is made through the Bank's statement and shall not require conclusion of any annex to the agreement.

7. The guarantee credit line agreement may be either a non-revolving facility agreement or a revolving facility agreement. As regards the revolving facility, whenever the Bank's obligation arising from the guarantee issued to the Borrower's order expires before the financing term end or prior to the end of the current credit term, if such has been determined, the amount of the credit limit available will increase and the Borrower will be entitled to apply to the Bank for issuance of subsequent guarantees, within the credit limit available and until the lapse of the financing term or the current credit term if such has been determined. With regard to the non-revolving facility, the credit limit shall not increase, and the Borrower may not apply for issuing subsequent guarantees.

#### Credit Currency

8. The credit limit may be denominated in PLN, USD or EUR. However, guarantees may be issued in any currency indicated by the Borrower, provided that the buy/sell rate of such a currency is quoted by the Bank. In the case the guarantee currency differs from the credit limit currency, the amount of the credit limit being used is each time decreased by the guarantee amount, which is increased, to secure against FX risk, by additional 5% of the guarantee amount, and in the case of a guarantee whose validity period exceeds six months, by additional 10% of the guarantee amount, using the FX rate binding at the Bank on the day of issuing the given guarantee.
9. In the event that the guarantees issued under the agreement are denominated in a currency other than PLN, USD, EUR, the credit limit amount thus used is determined through a conversion of the guarantee currency into the credit currency. Making such a conversion shall not require a separate instruction of the Borrower.
10. The agreement may specify credit limits (sub-limits) for particular currencies.

#### Payment under the Guarantee

11. In the event that the guarantee beneficiary demands payment under the guarantee issued by the Bank, the Bank shall effect the payment and the Borrower is obligated to return the paid amount to the Bank on the same date when the Bank made the payment under the guarantee. If the Bank effects the payment in a foreign currency other than the credit limit currency, the Borrower is obligated to repay the amount paid by the Bank after its currency conversion into the credit limit currency. The currency conversion shall be made on the day of making the payment by the Bank.
12. The Bank shall make a payment under a guarantee after all the conditions described in the guarantee are fulfilled, in particular after a demand for payment is

made or all required documents and statements are submitted. The Bank is not obliged to verify the circumstances that result from submitted documents or presented statements, unless the content of the guarantee indicates otherwise.

13. The Bank will notify the Borrower immediately about receiving a demand for payment from the guarantee beneficiary or its bank, and then about whether the Bank considered the demand consistent with the guarantee content and made the payment (with an indication of its date) or whether refused to make the payment, or about a withdrawal of the demand for payment by the beneficiary.
14. The Bank is not obliged to analyse the existence, validity, effectiveness and legal effects of any legal relationship between the Borrower and the guarantee beneficiary, in each case when the payment is consistent with the guarantee terms and conditions. The assessment of the demand consistence is made solely by the Bank.
15. The Bank debits the Borrower's accounts held in the Bank, without the need of a separate instruction from the Borrower, with the amount and currency paid to the guarantee beneficiary. The Borrower shall ensure a sufficient amount of funds on the Borrower's accounts held in the Bank to cover the amount paid by the Bank under the guarantee. If there are insufficient funds on the Borrower's accounts, the debt becomes past due and the Bank is entitled to withhold the issuance of guarantees ordered by the Borrower.
16. The Borrower hereby agrees that in the case of a past due debt, the Bank shall be authorized to submit a statement, in writing or with use of electronic signature, on the Borrower's liability novation within the meaning of Article 506 of the Civil Code; as a consequence, the Borrower's liability shall become a liability under a non-revolving loan with the principal debt amount corresponding to the amount paid by the Bank under the guarantee, repayment date of seven (7) days of the date of payment under the guarantee made by the Bank, and interest rate for past-due debt amounting to the maximum default interest rate determined under Article 481 of the Civil Code Act dated 23 April 1964. Whenever the Entity Establishing the Collateral is different from the Borrower, and the collateral is a suretyship or a limited property right, the Entity Establishing the Collateral gives consent to maintain the collateral established by that Entity despite making the novation.
17. Subject to the mandatory provisions of law, the Bank shall not be liable to the Borrower for damage suffered by the Borrower as a result of the issuance of a guarantee in accordance with the order or payments made by the Bank under the guarantee in accordance with its content, unless the damage occurred unlawfully, as a result of wilful misconduct of the Bank.

#### Security Deposit

18. The Bank is authorised to demand a security deposit and the Borrower shall establish the same in the following cases:

- a) if it is so provided under the guarantee credit line agreement or order,
  - b) in the event the Borrower fails to meet the agreement terms and conditions, or if there is a risk to a timely repayment of the Bank's receivables due from the Borrower,
  - c) in cases described in §18 item 2 of the Regulations,
  - d) in a situation when the guarantee validity period is longer than then current credit term (as long as such a term is determined) and then the credit is not provided available for the subsequent credit term.
19. The security deposit constitutes collateral for conditional receivables due to the Bank from the Borrower regarding the reimbursement of amounts paid by the Bank under guarantees issued under the agreement.
  20. The Borrower shall establish the security deposit prior to the credit disbursement in the case specified in item 18 section a), while in cases determined in item 18 sections b) through d) - immediately, upon receiving the request from the Bank.
  21. The security deposit is established by an ownership transfer of an amount as collateral made by the Borrower in favour of the Bank pursuant to Article 102 of the Banking Law.
  22. In cases specified in item 18 sections b) through d), in the request to establish the security deposit, the Bank indicates the amount corresponding to the valid guarantees issued by the Bank under the agreement, and the account which should be credited with the amount.
  23. The Borrower shall ensure sufficient funds on the Borrower's account to establish the security deposit. In the event of insufficient funds in the Borrower's accounts, the Bank is entitled to lodge a claim against the Borrower for payment of the missing amount needed to make the deposit.
  24. The Borrower hereby grants an irrevocable power of attorney to enter into a security deposit agreement by and between the Bank and the Borrower, without the prior request upon the Borrower to fulfil that obligation, under standard terms and conditions applied by the Bank. Article 108 of the Civil Code shall not apply. To effectively establish the deposit, it is not necessary to make the agreement in writing. It will be sufficient when the Bank collects the specified amount from the Borrower's account and, in cases determined in item 18 sections b) through d), notifies the Borrower about the establishment of the deposit and its parameters. The security deposit is established in the guarantee currency, unless it has been agreed otherwise. In the event the Borrower's accounts are maintained in other currency than the currency of the security deposit to be made, the Bank shall make a currency conversion on the terms specified in the Regulations, and allowing for the provisions of the agreement or the Regulations regarding hedging the exchange rate risk.
  25. Funds of the security deposit will not earn interest, unless the parties have agreed otherwise.
26. If the parties have decided that the security deposit established in cases specified in para. 18(a) will bear interest, than the interest will be calculated at the fixed interest rate applicable to term deposits in the currency of the security deposit on the date of its collection from the Borrower's account, determined in the Table of interest rates for funds in a BNP Paribas Bank Polska S.A. account or at the interest rate individually agreed with the Bank.
  27. If the parties have decided that the security deposit will bear interest, remuneration for using the amount of the deposit (interest) will be calculated by the Bank at the end of the period for which the deposit was established (i.e. 14 days from the expiry date (including due to return of the guarantee or the beneficiary releasing the Bank from any obligations arising from the guarantee before the expiry date)), unless the parties have agreed otherwise. The Bank will transfer the accrued remuneration to the Borrower's account from which the security deposit has been collected (after the deduction of the costs of transferring the funds).
  28. In the event that the Bank makes a payment in favour of the beneficiary of the guarantee issued by the Bank, the Bank may recover the paid amount against the security deposit established (satisfaction with the collateral) without any separate instruction of the Borrower, whereof the Bank will notify the Borrower forthwith.
  29. The amount of the security deposit shall be decreased accordingly in the case of a guarantee expiry, likewise return of the guarantee by its beneficiary prior to its validity date, without requesting any payment under the guarantee in the meantime. The security deposit shall be decreased after 14 days of the guarantee expiry (including due to the return of the guarantee or a release of the Bank by the beneficiary from obligations under the guarantee prior to its validity date), in such a manner that the Bank returns the relevant funds plus the interest accrued to the Borrower's current account.
- §4 Profile of a Letter of Credit Line Agreement**
1. Under a letter of credit line agreement, the Bank enables the Borrower to submit orders to open letters of credit (L/Cs), in original or via the internet banking system.
  2. The Bank may refuse to execute the order submitted by the Borrower to open or amend a letter of credit, without specifying the refusal reason, in particular in the event the Borrower has violated stipulations of the letter of credit line agreement or the Regulations, or if the order breaches any social, environmental or governance responsibility criteria (CSR/ESG) required by the BNP Paribas Group.
  3. The total amount of letters of credit to be issued by the Bank together with the tolerated L/C amount indicated in the letter of credit order may not exceed the credit amount (credit limit) indicated in the agreement. Any letters of credit issued under the agreement and amounts paid by the Bank under the L/Cs that remain unpaid by the Borrower shall decrease the amount of the credit limit available.
4. In the event of any ambiguities in the content of the order or non-compliance between the order and the contents of the documents attached thereto, the Bank may ask the Borrower to remove them. The Bank can also require the submission of additional documents that are necessary, in the Bank's opinion, to take a decision on the order execution.
  5. Any activity carried out between the Borrower and the letter of credit beneficiary shall not affect the scope of the liabilities of the Borrower towards the Bank under the order to open the L/C.
  6. The performance date of L/Cs opened by the Bank may not end later than 14 days prior to the end of the financing term.
  7. The L/C line agreement may be either a non-revolving facility agreement or revolving facility agreement. As regards the revolving facility, whenever the Bank's obligation arising from the L/C opened to the Borrower's order expires before the financing term end or prior to the end of the current credit term, if such has been determined, the amount of the credit limit available will increase and the Borrower will be entitled to apply to the Bank for opening subsequent L/Cs, within the credit limit available and until the lapse of the financing term or the current credit term if such has been determined. With regard to the non-revolving facility, the credit limit shall not increase, and the Borrower may not apply for opening subsequent L/Cs.
- Credit Currency**
8. The credit limit may be denominated in PLN, USD or EUR. However, L/Cs may be opened in any currency indicated by the Borrower, provided that the buy/sell rate of such a currency is quoted by the Bank. In the case the L/C currency differs from the credit limit currency, the amount of the credit limit being used is each time decreased by the L/C amount, which is increased, to secure against FX risk, by additional 5% of the L/C amount, and in the case of an L/C whose term of realisation exceeds six months, by additional 10% of the L/C amount, using the FX rate binding at the Bank on the day of opening the given L/C.
  9. In the event that the letters of credit issued under the agreement are denominated in a currency other than PLN, USD, EUR, the credit limit amount thus used is determined through a conversion of the L/C currency into the credit currency. Making such a conversion shall not require a separate instruction of the Borrower.
  10. The agreement may specify credit limits (sub-limits) for particular currencies.
- Payment under a Letter of Credit**
11. - repay the amount paid by the Bank after its currency conversion into the credit limit currency. The currency conversion shall be made on the day of making the payment by the Bank.
12. The Bank shall make a payment under a letter of credit after all the conditions described in the L/C are fulfilled, in particular after all required documents and statements are submitted. The Bank is not obliged to verify the circumstances that result from submitted documents or presented statements, unless the content of a letter of credit indicates otherwise.
  13. The payment is made regardless of the existence, validity, effectiveness and legal effects of any legal relationship between the Borrower and the L/C beneficiary, in each case when the payment is consistent with the L/C terms and conditions.
  14. The Bank debits the Borrower's accounts held at the Bank, without the need of a separate instruction from the Borrower, in the amount and currency paid to the L/C beneficiary. The Borrower shall ensure a sufficient amount of funds on the Borrower's accounts held at the Bank to cover the amount paid by the Bank under the L/C. If there are insufficient funds on the Borrower's accounts, the debt becomes past due and the Bank is entitled to withhold the performance of L/Cs ordered by the Borrower.
  15. The Borrower hereto agrees that in the case of a past due debt, the Bank shall be authorized to submit a statement, in writing or with use of electronic signature, on the Borrower's liability novation within the meaning of Article 506 of the Civil Code; as a consequence, the Borrower's liability shall become a liability under a non-revolving loan with the principal debt amount corresponding to the amount paid by the Bank under the L/C, repayment date of seven (7) days of the date of payment under the L/C made by the Bank, and interest rate for past-due debt amounting to the maximum default interest rate determined under Article 481 of the Civil Code Act dated 23 April 1964. Whenever the Entity Establishing the Collateral is different from the Borrower, and the collateral is a suretyship or a limited property right, the Entity Establishing the Collateral gives consent to maintain the collateral established by that Entity despite making the novation.
  16. Subject to the mandatory provisions of law, the Bank shall not be liable to the Borrower for damage suffered by the Borrower as a result of opening the L/C in accordance with the order or payments made by the Bank under the L/C in accordance with its content, unless the damage occurred unlawfully, as a result of wilful misconduct of the Bank.

18. The security deposit constitutes collateral for conditional receivables due to the Bank from the Borrower regarding the reimbursement of amounts paid by the Bank under letters of credit opened under the agreement.

  23. The Borrower hereby grants an irrevocable power of attorney to enter into a security deposit agreement by and between the Bank and the Borrower, without the prior request upon the Borrower to fulfil that obligation, under standard terms and conditions applied by the Bank. It will be sufficient when the Bank collects the specified amount from the Borrower's account and, in cases determined in item 18 sections b) through d), notifies the Borrower about the establishment of the deposit and its parameters. The security deposit is established in the L/C currency, unless it has been agreed otherwise. In the event the Borrower's accounts are maintained in other currency than the currency of the security deposit to be made, the Bank shall make a currency conversion on the terms specified in the Regulations, and allowing for the provisions of the agreement or the Regulations regarding hedging the exchange rate risk.
  24. Funds of the security deposit will not earn interest, unless the parties have agreed otherwise.
  25. If the parties have decided that the security deposit established in cases specified in para. 17(a) will bear interest, than the interest will be calculated at the fixed interest rate applicable to term deposits in the currency of the security deposit on the date of its collection from the Borrower's account, determined in the Table of interest rates for funds in a BNP Paribas Bank Polska S.A. account or at the interest rate individually agreed with the Bank.
26. If the parties have decided that the security deposit will bear interest, remuneration for using the amount of the deposit (interest) will be calculated by the Bank at the end of the period for which the deposit was established (i.e. 14 days from the expiry date of obligations arising from the last letter of credit), unless the parties have agreed otherwise. The Bank will transfer the accrued remuneration to the Borrower's account from which the security deposit has been collected (after the deduction of the costs of transferring the funds).
  27. In the event that the Bank makes a payment in favour of the beneficiary under the letter of credit opened by the Bank, the Bank may recover the paid amount against the security deposit established (satisfaction with the collateral) without any separate instruction of the Borrower, whereof the Bank will notify the Borrower forthwith.
  28. The amount of the security deposit shall be decreased accordingly in the case of the expiry of the Bank's obligations under letters of credit opened to the Borrower's order.
